

Dear Colleagues,

Beginning in June 2020, New Castle County Government not only started public testing sites, but also employee testing. For over 2 years, we have provided COVID-19 testing to all employees, retirees, as well as your families and friends. We appreciate the willingness to get tested and adapt to all the changes throughout these past 2 years. Getting tested over these past few years has helped keep all of us safe so that we could continue to provide top-notch service to the residents of New Castle County.

Over the past few months, the number of employees/retirees getting tested has dwindled down. Therefore, over the next 2 weeks, we will go from testing 5 days a week to 2 days a week, and eventually ending testing on **August 1, 2022**. The new testing schedule for the next 2 weeks will be:

- **Tuesdays at the Connor Building from 7am to 9:30am**
- **Thursdays at the Gilliam Building from 9am to 10:30am**

There are numerous places throughout the county where you may still get Free COVID-19 Testing. Below is the link to assist you in finding a location to get tested:
